BESPOKE & HAND FINISHED WOOD FLOORING

STYLE GUIDE

VOLUME 01

+

STYLE GUIDE

VOLUME 01

The colours, species and finishes shown in this collection form only a small part of the styles that we are able to achieve.

If you are looking for something unique, or a style that you don't see, please contact us and we can create it for you. Our specialists are on hand to help you achieve the look you want for your project, and are happy to provide any support that you need.

This swatch book is a guide to help you select and compare colours and finishes for your project. However, the photographs are only a representation of the actual product and we recommend you always ask to see a sample before placing an order. Full product information can be found on the reverse of each product page.

GRADES

OAK PLANKS

Türkon source timber species from many different countries, each having different grading rules and industry standards.

With Oak being one of the most popular for wooden flooring, we have used this species to highlight three different types of grading to illustrate what variables you can expect.

PRIME GRADE OAK PLANKS

Prime grade oak is characterised by a mix of both flat cut and quarter cut light oak. It usually has little or no colour variation but can have knots with a diameter of no more than 5mm.

There may also be some single pin knots or be completely knot free. Larger knots, where necessary, will be repaired, filled and sanded. Prime grade is also free from bark pockets, sapwood or worm holes.

PLEASE NOTE :

All our finishes are available on herringbone, chevron or planks and are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

QUARTER SAWN GRADE OAK PLANKS

Quarter sawn grade oak is characterised by quarter cut light oak only. It is knot free and has uniform colour (discolouration is not permitted).

Quarter sawn grade is also free from bark pockets, sapwood or worm holes.

PLEASE NOTE :

All our finishes are available on herringbone, chevron or planks and are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

RUSTIC GRADE OAK PLANKS

Rustic grade oak is characterised by a mix of both flat cut and quarter cut light oak. This grade will often have colour variation and knots up to 35mm in diameter.

There may also be some additional light healthy knots and pin knots, with a diameter up to 5mm. Some knots, where necessary, will be repaired, filled and sanded. Rustic grade will also be free from sapwood.

PLEASE NOTE :

All our finishes are available on herringbone, chevron or planks and are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

LIGHT OAK COLOURS

As Oak is one of the most popular choices for wooden flooring, we have developed a wide range of colours for this species. The following pages showcase our lightest Oak colours.

If you have a particular colour in mind that you can't find here in our swatch, please contact us and we can create a custom colour specific to your needs.

LIGHT OAK

MID-TONE

OAK COLOURS

As Oak is one of the most popular choices for wooden flooring, we have developed a wide range of colours for this species. The following pages showcase our mid-tone Oak colours.

If you have a particular colour in mind that you can't find here in our swatch, please contact us and we can create a custom colour specific to your needs.

All our species are available on herringbone chevron and planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

FINISHES

SURFACE TREATMENTS

Our Türgon craftsmen can create almost any type of surface finish that you desire; from smooth to distressed.

Our products can also be finished with a variety of oils, wax oils, or lacquers. Available in either matt, silk or gloss all the finishes are available with any of our products and with any colour.

SMOOTH SANDED

FINISH 01

A smooth sanded finish will give your floor an ultra sleek look. This particular finish can only be achieved by finishing on site.

A huge variety of colours are available but achieving a smooth sanded finish whilst retaining the desired colour requires more time and preparation.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

LIGHT BRUSHED

FINISH 02

The process of brushing is done by machine. Putting a wood floor through a brushing machine scrapes the soft grain from the growth ring leaving the heart wood exposed, and generally making for a much harder floor.

Brushing a floor also allows you to create a two tone effect, and it can be done to using a variety of different colours and species of wood. If you're looking to create something really dramatic, then this is the way to go.

All our floors are lightly brushed as standard unless otherwise specified.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

HEAVY BRUSHED

FINISH 03

The process of brushing is done by machine. Putting a wood floor through a brushing machine scrapes the soft grain from the growth ring leaving the heart wood exposed, and generally making for a much harder floor.

Brushing a floor also allows you to create a two tone effect, and it can be done using a variety of different colours and species of wood. It can be done for a light effect, or brushing can be done deeply.

If you're looking to create something really dramatic, then this is the way to go. You can have as much or as little brushing as you require to create the effect you're looking for.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

HAND SCRAPED

FINISH 04

Our hand scraping is done with a variety of sized planers and blades to allow us to change the type of effect you may be looking for.

As with all custom floors, this is a matter of taste, and we can create any effect you are looking for.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

HEAVY HAND SCRAPED

FINISH 05

Our hand scraping is done with a variety of sized planers and blades to allow us to change the type of effect you may be looking for.

As with all custom floors, this is a matter of taste, and we can create any effect you are looking for.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

TIME WORN

FINISH 06

We are masters at manipulating wood in a variety of ways, and our custom finished undulating floors create a subtle but stunning visual effect that can be reproduced on any wood species and in any colour.

These floors are all made by hand in our own UK workshop.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

AGED & DISTRESSED

FINISH 07

All our floors are distressed and manipulated by hand, which means the amount of distressing can be accurately controlled, creating an extremely authentic visual effect. There are various techniques we can apply in the distressing and ageing of a floor, and this picture represents just one type.

We age and distress our boards by hand instead of using tumbling machines which can damage the board in an unnatural way.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

ANTIQUE

FINISH 08

We use a variety of techniques to create some amazing aged and antique finishes on wood. We can create a very heavy antique/damaged look, or it can be reproduced in a more subtle way.

We can create any finish on any species to any custom order.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

ANTIQUE HEAVY

FINISH 09

We use a variety of techniques to create some amazing aged and antique finishes on wood. We can create a very heavy antique/damaged look, or it can be reproduced in a more subtle way.

We can create any finish on any species to any custom order.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

CHEMICAL

FINISH 10

By blending a cocktail of environmentally safe chemicals together, we can create some amazing effects.

Chemical reactions can by nature be inconsistent, and they are sometimes difficult to control, in turn making them difficult to reproduce.

Despite the unpredictable process, chemical reactions can make the most unusual and unique floors.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

EASED EDGES

FINISH 11

By gently easing all the edges of the wood with special tools, we can create a look which will give the effect of a floor that has been laid for a number of years. Its subtle and visually very effective.

This technique is available on all our floors from planks to herringbone.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

BAND SAWN

FINISH 12

This is a machine process which produces an unusual effect, and is ideally suited to commercial areas. It can be done on any species regardless of width.

As with all hand finishes they cannot be sanded otherwise the effect will be lost.

PLEASE NOTE :

All our finishes are available in any colour, and as herringbone, chevron or planks. All our products are hand finished using a blend of natural wax oils. Some finishes are also available in lacquers. The photographs are only a representation of the actual product. Always ask to see a sample.

STYLE GUIDE

VOLUME 01

The colours, species and finishes shown in this collection form only a small part of the styles that we are able to achieve.

If you are looking for something unique, or a style that you don't see, please contact us and we can create it for you. Our specialists are on hand to help you achieve the look you want for your project, and are happy to provide any support that you need.

This swatch book is a guide to help you select and compare colours and finishes for your project. However, the photographs are only a representation of the actual product and we recommend you always ask to see a sample before placing an order. Full product information can be found on the reverse of each product page.
